-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

All previous rejections of the prior Office Action are incorporated herein by reference and are repeated.

Applicant's arguments filed 3/27/07 have been fully considered but they are not persuasive.

The affidavit does not appear relevant. Further, it was already submitted. The rejection states that the 1% Pt of the reference is not seen to differ from the 1% Pt of the examples. This is not addressed; applicant should show an actual difference. Further, the translated equation has dropped a C atom which can be seen in the original text.

Arntz does in fact provide evidence of inherency and in fact a nexus has been shown, as explained in the rejection. A 102/103 rejection is not a 102 together with a 103. It is a 102/103. The examiner has provided evidence that a *particular limitation* in the claim is possessed by a reference, and this is perfectly proper- indeed, mandated- regardless of whether the *rejection overall* is made under 102, 103 or 102/103. There is no combination of Arntz and Takamura, so arguments that they are not combinable are irrelevant. In fact, the rejection by the previous examiner was re-written for the express purpose to remove language suggesting a combination. Concerning the rejection using Shore, once it is accepted that Takamura possesses the claimed CO adsorption (as evidenced by Arntz AND the similarity to the present specification), then Shore is added because it is *combined with Takamura*, so Arntz was not mentioned. The confusion is regretted. If it turns out that Takamura does not possess the CO adsorption, then all rejections will be withdrawn.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1754

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
